

Serial No. 09/919,356

**WHAT IS CLAIMED IS:**

**Claims 1-23. (cancelled)**

**24. (currently amended)** A computer program execution device accessible to a server via a network and having at least a display device, wherein a performance information file includes sequence information that constitutes a performance and flag information that defines movements or expressions of characters that appear in the sequence information, the computer program execution device comprising:

means for processing movement data that is stored in the computer program execution device, the movement data including ~~includes~~ different data corresponding to flag information;

means for receiving the performance information file by the computer program execution device;

means for composing the performance by selecting from the movement data the data that corresponds to the sequence information and the flag information registered on the performance information file to define the movements and expressions of characters; and

program display means for displaying the composed performance on the display device.

**25. (currently amended)** A communication system having a network, a server, and an entertainment system accessible to the server via the network, ~~recording medium including a computer program that can be read by a computer used in an entertainment system accessible to a server via a network,~~ wherein a performance information file includes sequence information that constitutes a performance and flag information that defines movements or expressions of characters that appear in the sequence information, the entertainment system comprising:

**Serial No. 09/919,356**

means for processing movement data that is stored in a computer of the entertainment system, the movement data including ~~includes~~ different data corresponding to flag information;

means for receiving the performance information file by the computer;

means for composing the performance by selecting from the movement data the data that corresponds to the sequence and the flag information registered on the performance information file to define the movements and expressions of characters; and

program display means for displaying the composed performance on a display device of the entertainment system.

**26. (currently amended)** The communication system ~~recording medium~~ of claim 25, wherein the entertainment system ~~functions as means for transmitting~~ is adapted to transmit contributed texts of users to the server.

**27. (currently amended)** The ~~recording medium~~ communication system of claim 25, wherein the entertainment system ~~functions as means for displaying~~ is adapted to display an opening image on the display means during a reception of the performance information file from the server, and displaying the series of the performances after the reception of the performance information file is completed.

**28. (currently amended)** A ~~computer program that can be read by a computer used in a~~ computer program execution device accessible to a server via a network, ~~wherein a performance information file includes sequence information that constitutes a performance and flag~~

Serial No. 09/919,356

~~information that defines movements or expressions of characters that appear in the sequence information, the computer program execution device comprising:~~

~~means for processing movement data that is stored in the computer program execution device, the movement data including~~includes different data corresponding to flag information;

~~means for receiving thea performance information file by the computer program execution device;~~

~~means for composing thea performance by selecting from the movement data the data that corresponds to thea sequence and a flag information registered on the performance information file to define the movements and expressions of characters; and~~

~~program display means for displaying the composed performance on a display device of the computer program execution device;~~

~~wherein the performance information file includes the sequence information that constitutes the performancc and the flag information that defines movements or expressions of characters that appear in the sequence information.~~

29. (cancelled)
